

AutoCAD® 2010 – Transitioning from AutoCAD® 2009

Course Length: 1 Day

Class Hours: 8:00AM to 5:00PM

Cost: \$230, plus \$60 Training Manual Fee

Courseware Description

The rebuilt AutoCAD® 2009 interface includes the ribbon macro recorder, improved 3D navigation, and other productivity improvements. AutoCAD® 2010 software builds on this success with major new 2D and 3D design features that every AutoCAD® user had dreamed about.

Using hands-on exercises learn how to use the new parametric constraints to add tremendous design intelligence to 2D geometry and to build extremely powerful dynamic blocks using the same constraint technology. Learn free-form design concepts and how to use the 3D mesh modeling tools to create and document organic designs as well as how to apply the many productivity-improving features such as PDF Underlay, 3D printing and viewport rotation, and others.

Objective

The primary objective of this courseware is to bring students up to date with AutoCAD® 2010 enhancements.

Who Should Attend

This courseware is designed for the current AutoCAD® user who is upgrading to AutoCAD® 2010 from AutoCAD® 2009.

Prerequisites

Before using this courseware, students should have a working knowledge of the following:

- A recent version of AutoCAD®.
- Microsoft® Windows® Vista, Microsoft® Windows® XP, or Microsoft® Windows® 2000.
